Our VISION

Our vision is to be the traffic control supplier of choice throughout Sydney metropolitan, Central Coast & Blue Mountains areas providing effective traffic management solutions that meet Australian safety standards and exceeds the expectations of our clients and the communities in which we operate, where we can provide services as a “one-stop” offering.

Our MISSION

We at Rhino Traffic Control Services Pty Ltd provide our clients with complete, personalised, practical and flexible solutions to enhance their productivity and operational performance on all of their worksites whilst ensuring a high level of safety and customer satisfaction is always maintained on all sites.

Company Profile

Rhino Traffic Control was established in 2012 with the dream to “not to be the biggest, just the best at what we do”. A family owned and operated Traffic Control business based in Western Sydney, the company offers a full spectrum of traffic related services, from general traffic management, supply of traffic controllers and procurement of all road related approvals. Developed with a structure that meets all the demands of the industry, Rhino Traffic Control have comprehensive policies in place that aim to provide a safe working environment for all involved.

Our experience gives us knowledge of the real issues facing organisations, allowing us to focus on developing solutions that are relevant, practical and cost-effective. With many years of industry expertise, our professionals work closely with our clients to understand their needs to provide tailored solutions ranging from small to large construction and civil projects. Our unique service platform, support structure and individualised approach enables us to be entrenched in the systems, ideals, planning and our client’s ways of working.

At Rhino Traffic Control, we are good, honest people who care, and our unbreakable family bond is what drives the business. We value and respect all people – regardless of age, gender, cultural or religious backgrounds. Our business activities are undertaken with honesty, respect and integrity in every dealing, every day.

By building Rhino Traffic Control from the initial dream to the Company that it is today has given our family the opportunity to create a great family orientated team.

With a solid reputation throughout the industry, Rhino Traffic Control can become your partner in traffic control for your next project. With an experienced team and the latest equipment, they provide services including, project management, hazard planning and traffic management plans which are complimented by a personalised 24/7 service. Offering fast response time, flexibility, competitive prices and comprehensive WH&S policies, Rhino Traffic Control are a cost effective and dependable choice for traffic management.

Rhino Traffic Control’s management is committed to continuing to develop our team and our capabilities. In line with our vision, we are focused on providing effective traffic management solutions that meet Australian safety standards and exceeds the expectations of our clients and the communities in which we operate, where we can provide services as a “one-stop” offering.

Services

With a “one-stop” offering, Rhino Traffic Control will develop a clear strategy and set objectives based on your specific traffic management requirements. Our team of traffic control experts will listen to your project requirements complete a site survey and present you with traffic management plan and follow through to implementation.

Operating 24-hours a day our team is dedicated and structured to ensure the best possible outcomes are delivered; not only for ourselves, but for our clients and the communities we operate.

Traffic Management Services include:

- **Traffic Control Crews & Traffic Controller Hire** – highly trained and experienced personnel dedicated to ensuring the highest of standard and safety is carried out on every worksite.
- **Traffic Management Planning (TMP)** – using dedicated software you will be provided with a computerised plan that illustrates required signs, equipment and layout of all site-specific requirements.
- **Project Management** – we will implement your traffic management plan ensuring site conditions are in compliance with Australian Standards, a high level of safety is paramount for a successful TMP.
- **Hazard and Job Safety Analysis** – our team will access the site, provide guidance, advice and a comprehensive plan to carry out a safe and controlled traffic project.
- **Consultation with Local Authorities & Procurement of all Road and Footpath Permits & Licences** – long term relationships with local authorities means that our team can effectively communicate and negotiate throughout the project.

Rhino Traffic Control will supply all signage, traffic control devices and equipment required for onsite Traffic Control in accordance with Australian Standards 1742.3-2009 “Manual of Uniform Traffic Control Devices” and RMS “Traffic Control at Work Sites” (TCAWS) Manual V6.1.

Our number one priority is to protect the health, welfare and safety of all its employees, contractors and commuters around the worksite and regular inspections and maintenance is carried out on all equipment.

Health & Safety

As part of Rhino Traffic Control's commitment to achieving the principles of health and safety in the workplace, recognising the moral and legal responsibilities to provide a safe and healthy work environment for employees, contractors, customers and visitors. Our commitment to safety extends to ensure that our operations do not place the local community at risk of injury, illness or damage.

A comprehensive manual has been designed, covering health and safety policies for the following:

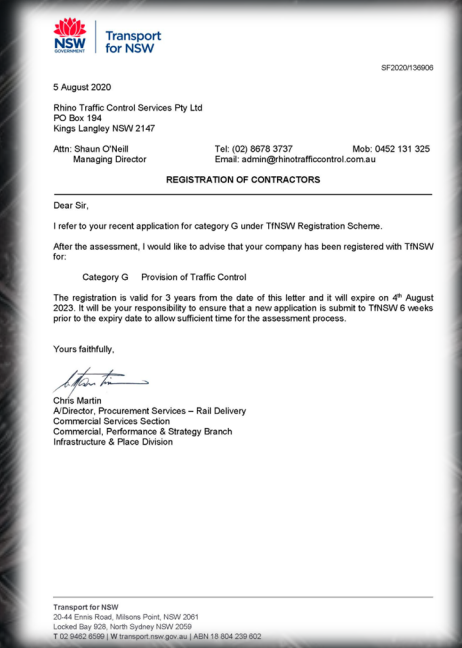

- Effective Work, Health & Safety
- Registered Covid-19 Safe Workplace
- Environmental
- Emergency
- Induction
- Risk Management
- Rehabilitation
- Equal Opportunity
- Drug & Alcohol

Key Organisational Personnel

Rhino Traffic Control employs a team of more than twenty people with a wealth of knowledge and experience. Led by Managing Director Shaun O'Neill, our team is fully qualified and committed to completing each job – no matter how big or small – in a way that exceeds client expectations.

We place enormous importance on teamwork, commitment and ongoing training to ensure the working environment is a rewarding and safe place to be. All our staff hold current WHS Construction Induction Cards, "Traffic Controller" Licences, "Implement Traffic Control Plan" Licences and are constantly under supervised training to improve work safe standards. Our Traffic Control Team Leaders hold the above as a minimum plus "Prepare a Work Zone Traffic Management Plan" Licence and "First Aid" Ticket.

We will always continue to strive for excellence in all that we do to ensure all our staff work safe, to be home safe.

Fleet Servicing & Maintenance

Rhino Traffic Control's vehicles and trailered plant are diligently serviced and maintained by industry leader NRMA Mobile Mechanics. Our business relationship with NRMA extends from Insurance, roadside assistance and mechanical repairs. This ensures our vehicles and plant are of the highest standard mechanically and safety inspected every service with comprehensive printed reports.

We are proud to have NRMA on board looking after our business needs as this ensures we maintain a safe and healthy working environment for all staff of Rhino Traffic Control.
